Begyedom Katakylie It is also an education on the type of challenges we the advocates and the Nananom are bound to face so sharing might give them ideas on what to prepare for.....WE ARE UNDER ATTACK FROM ALL ANGLES.

Sankhkara Adisa I agree bro Kwadwo we are under attack but the best way for us to defend ourselves is to be organised. focus and dedicated to defending, correcting & promoting our belief / culture. That is why i am working on a global African Spiritual council. An organised body is needed to be the platform for our beliefs & practices to be respected on all fronts.

Sankhkara Adisa As for the lost person talking on the video tell him to take himself back to the motherland in the deepest bushes and seek his western minded answers there. This is why deep knowledge cannot just be given out to people who are not ready or prepared.

If you have any festival or any traditional event coming up, let us know so that we can publish it on our NANANOM online news site.

Let's write our own stories. You can also share with us in private messages from the deities during special events and we will either publish it for public consumption or for private archival purposes.

shrines that we can't handle,that destroy the body and soul.please descendants of Akom let's be filled with what we have,and live longer.

In Akom there is no room for faking,you fake today and you will be paid dearly tomorrow,sometimes instantly.

Some people are faking deities they don't possess or have in their shrines,they act as if they are possessed by these deities and end up doing the wrong thing,these deities will pay you dearly for faking them,Atia mframa is being faked by alot of people because of his potency,beware he comes for you

Akom is not about doing the spiritual dance alone, but to psychic and know the answer to spiritual and physical problems and be able to solve them voluntarily.

Okomfuor is the one who fast for the well being of his or her people, example being a medium for the shrines and the public, preparing medicine for his patients.

Obosomfour is he who consult shrines and offer sacrifices, and go in search for plant roots to prepare medicine for his patients. So let's stop showing our shrines to the public, for potent medicine and shrines is what you go in search for, not the one shown out for sale.

This group is created to educate Nananom of Ghana about the impending conference. No outside members are allowed. Strictly by invitation only. NO CONTENTS in the group are to BE SHARED in PUBLIC. They are for exclusive reading and viewing by the members in the group. Since this is our maiden conference, we are doing our best to keep a low profile for our conference till all is done. Thanks a lot. BEGYEDOM.
